PRAYER TO THE HOLY SPIRIT  
Holy Spirit, You who clarify everything for me, who illuminates all the ways so that I reach my ideal. You who give me the Divine gift of forgiving and forgetting the evil they do to me and that you are with me in every moment of my life. In this short dialogue I want to thank You for everything and confirm that I never want to be separated from You, no matter how great the material illusion.

I wish to be with you and all my loved ones in perpetual glory. Thanks for your mercy for me and mine. Thank my God. (The person must say this prayer 3 days in a row without saying the request, within 3 days grace will be reached, no matter how difficult it may be. Publish as soon as grace is received). I.I.

# HOW TO

## Choose a Security Company

**H**ow much is your family's security worth? What about your valuables?

Installing a professional security system to protect you and your loved ones is critically important in this increasingly uncertain world.

These days, many security companies use cutting-edge, highly customizable technologies that will protect you from intruders and other potential threats. Whether you are searching for a residential or commercial security system, choose a qualified, reputable company with a long track record.

Western Alarm Services, Inc. is locally owned and has operated in Lake Havasu City since 1978. We install, service, and monitor all our accounts.

### THE COMPANY

There are plenty of companies in the market that can help you, yet choosing the best one can seem like a daunting task. What questions should I ask? Are the technicians fingerprinted, insured and bonded? Would a wireless or wired system best fit my needs? Are the systems proprietary? Do I have to sign a 3 or 5 year contract? If I have a problem with my system, how long will it take for a technician to service my alarm? Be careful about FREE installations, nothing in this world is FREE.

Western Alarm Services, Inc. will help answer all these questions for you. An experienced salesman will educate you on all of your choices so you can pick the system that will best suit your needs.

### CUSTOMIZATION

Security systems can be customized for each specific customer. Choosing the right devices can make a big difference in the usefulness of the system and the final cost.

Security systems have come a long way and are more than for just your security needs. They can also incorporate water, smoke and carbon dioxide detection.

### THE EXTRAS

With today's generation we want to have instant answers and resolutions, Western Alarm Services, Inc.

understands that. We have security systems that can be controlled on your personal computer or smart device. You have immediate access to your security system no matter how far away you are. You will also have the ability to control your lighting, air conditioning and the arming/disarming of your alarm.

With all that said, the most important factor is trustworthiness. The best companies will support the product long after the sale is complete. They should help you with any problems and make certain you are comfortable with using your alarm system.

After all, a security system is an investment in your peace of mind. Please call Western Alarm Services, Inc. and we can come out and give you a free estimate that will be customized specifically for your security needs. We're Your Safe Place!

### WHO ARE WE?

Established In 1978, Western Alarm Service is a family owned & operated Fire and Security Alarm business located at 2029 Acoma W. Suits E. Lake Havasu City AZ. 86403. We operate a 24 hour service staff to ensure you receive the best service available and that you are protected.

### HOW DO YOU CONTACT US?

Our team can be reached M-F 8:00 am to 4:00 pm at our office or via our phone # (928) 855-5608. You can also request a quote via our website at WesternAlarmService.com or you can send us an email at Contactus@WestemAlarmService.com.

### DO YOU JUST DO ALARMS?

Nope. We do all forms of home automation to bring your world to your phone or smart device. Remote access to your thermostat, garage door, water heater, int/ext lights, water shut off valve cameras, and of course your alarm. Speaking of cameras, we also do custom professional camera and NVR/DVR installations. Imagine reviewing your security cameras live or recorded via your cell phone or smart device. Finally we do residential and commercial access control on all forms of doors. When we say stay out, we mean it.
