SUDOKU

Like puzzles?
Then you'll love sudoku
This mind-bending
puzzle will have you
hooked from the
moment you square off,
so sharpen your pencil
and put your sudoku
savvy to the test!

Level: Beginner

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

Walk Your Way to Better Health

A walk is not just good for your body, it's also good for your soul. Physical activity, like walking, is one of the best ways to reduce stress and boost your mood. However, reports show walking rates are declining steadily in the United States.

On average, 1 out of every 4 U.S. adults sits for longer than eight hours each day, per research from the Centers of Disease Control and Prevention, which can have negative consequences on physical and mental health. Regular exercise improves mood, boosts energy and can even help you sleep better. Staying active is one of the best ways to keep your mind and body healthy.

Consider this advice from the American Heart Association, which has worked for decades to promote policies and strategies that make it easier for communities to get and stay active. One example is National Walking Day, established by the organization to encourage people to move more throughout the day so they can feel, think, sleep and live better.

Indeed, adding more movement can benefit your body and mind in numerous ways, such as:

Lowering disease risk. Getting the recommended amount of physical activity (at least 150 minutes of moderate, 75 minutes of vigorous or a combination of those activities per week) is linked to lower risk of diseases, stronger bones and muscles, improved mental health and cognitive function and lower risk of depression, according to the U.S Department of Health and Human Services.

Increasing sunlight exposure. Outdoor exercise is an easy way to get moving and take in the sunlight, which can improve mood, boost immunity and help you get some vitamin D. Spending time outdoors is a no-cost option and has been shown to reduce stress, promote a sense of belonging and improve mood.

Improving cognitive and mental function. Physical activity keeps your mind sharp now and later. Studies show higher fitness levels are linked to better attention, learning, working memory and problem solving. What's more, a study published in the "British Journal of Sports Medicine" shows people who get the recommended amount of physical activity are less likely to develop depression.

Living longer. Healthy life expectancy can be positively impacted by increasing activity. According to research published in the "American Journal of Epidemiology," swapping just 30 minutes of sitting with low-intensity physical activity reduced risk of death by 17%.

Get moving to reduce your stress and step into better health. Learn more at heart.org/movemore.

GET INSPIRED TO GET MOVING

A little creativity can go a long way to make your walk more fun. You might think of walking as a solo activity, but a companion makes it even more enjoyable. Ask colleagues, friends or family to join you.

A walk is a perfect excuse to take a break from a long day at your desk. If you work remotely, take a conference call on the go or plan your walk as a reward for completing a project.

Use your walk as a guilt-free opportunity to listen to a new audiobook or create a walking soundtrack of your favorite upbeat music.

Mix up your scenery. Taking new routes keeps your walks interesting and helps prevent boredom from traveling the same predictable path.

If you need an extra nudge to get moving, a pet may help you get fit. Dog parents are more likely to reach their fitness goals than those without canine companions. In fact, according to the "Journal of Physical Activity & Health," dog parents are 34% more likely to fit in 150 minutes of walking a week than non-dog owners. Pets can also help lower stress, blood pressure, cholesterol and blood sugar and boost your overall happiness and well-being.

Horoscope

ARIES (Mar 21/Apr 20) There is more to any situation than the money factor, Aries. When a new opportunity comes your way, look beyond the payoff to see what the heart of the offer entails.

TAURUS (Apr 21/May 21) Look to your family members if you need inspiration on a new project, Taurus. Use loved ones as a sounding board for all of the ideas that are bouncing around.

GEMINI (May 22/Jun 21) The willpower that you have been relying on lately is still going strong, Gemini. That is excellent and it's having a profound effect on other areas of your life.

CANCER (Jun 22/Jul 22) Cancer, gossip is not something you usually delve into, but you may get roped into a conversation this week. Try not to give any weight to the rumors swirling around.

LEO (Jul 23/Aug 23) Leo, you shouldn't be boastful about your abilities, but try not to be too modest. Accept the credit you are given. Graciously embrace all of your good press.

VIRGO (Aug 24/Sept 22) An interesting invitation might come your way, Virgo. It could open the door to a very busy social calendar if you accept and do some key networking.

LIBRA (Sept 23/Oct 23) Libra, an issue that you were worrying about is unlikely to surface. Stay in the present instead of looking ahead to all of the things that might go wrong.

SCORPIO (Oct 24/Nov 22) It may seem as if you are operating on autopilot, Scorpio. Days seem a carbon copy at this point. Do something to alter your routine.

SAGITTARIUS (Nov 23/Dec 21) It's best if you avoid crowds for the time being, Sagittarius. You will benefit from some quiet time that only comes with being alone or within small groups of close friends.

CAPRICORN (Dec 22/Jan 20) You are not normally characterized as "impulsive," Capricorn. However, this week you may surprise everyone. An opportunity to travel or another venture could drop in your lap.

AQUARIUS (Jan 21/Feb 18) Aquarius, if you are not feeling challenged, you have to find activities that will get your brain moving again. Do whatever you can to spark some excitement.

PISCES (Feb 19/Mar 20) The choices coming your way are quite varied, Pisces. It can be overwhelming, so do not make any rash decisions until you work through all of your options.

Adopt Me

Petsmart Hours Friday and Saturday 10-5pm and Sunday 10-4pm

Our shelter adoption hours are Monday through Saturday 10-4:30pm, Sunday 12-4pm

Emma

Emma is a 4 year old (47 lb.) female pit bull terrier that is quite a sweetheart. She walks well on a leash and does great with other dogs in playgroups. She is always so excited to get out of the kennel to play and go on walks with her human. Emma loves affection and attention from people.

Shelter ID #100331

Skitter

Skitter is a 3 year old (50 lb.) neutered male mixed breed that is good with other dogs. He has high yet positive energy and would make a great hiking buddy. He likes to run free and absolutely loves water. Skitter has been at the shelter 153 days and as a Hopeful Heart his adoption fee is half off.

Shelter ID #98698

Chacha

Chacha is a 1 year old (52 lbs.) neutered male shepherd that is good with other dogs. He walks well on a leash and knows some commands like "sit." He likes to be petted and will crawl into your lap to get some loving. Chacha would make a great running buddy. Chacha and several of his adoptable friends can be seen at our PetSmart Adoption Center located in the Yuma Palms Shopping Center.

Shelter ID #101358

Osa

Osa is a 2 year old (45 lb.) female husky that gets along great with other dogs. She walks well on a leash and loves to run and play. She could make a perfect walking buddy. One fun thing about Osa is she is quite vocal and likes to have a conversation with you.
